

CHRISTOPHER WREN

PEOPLE WITH LEARNING DISABILITIES

WHO AM I

My name is Christopher and I live in a supported housing property on my own in individual flats. I have some support hours that help me with my everyday needs. I get involved with my landlord in many events where I give my views about the housing association. I do this because I feel it is important to give my views about the place where I live. I am quite vocal with my views about my support provider and I pass these views through VOICE FOR ALL for tenants.

WHY I WANT TO BE ON THE REPRESENTATIVE BODY

I want to be a part of representative body as I feel that changes are being made about my life. People with supported housing needs need a strong voice. Our voices are not heard when others are changing the face of social housing. As I represent my views in meetings with Progress Housing Group my landlord I feel I have built up a good understanding about my tenancy agreement.

PEOPLE WITH LEARNING DISABILITIES

WHY I THINK I WOULD DO A GOOD JOB

Being on the representative body I will be able to further my views about issues that are raised. I will also be able to take interests of other people and bring to the meetings to make sure that they are heard.

WHY PEOPLE SHOULD VOTE FOR ME

I am passionate about support for people with learning disabilities. I have Dementia so I know what it is like to feel out of place. I see that people with learning disabilities also my parents have passed away so I am on my own and want to make sure that peoples voices are heard for the future.
