

MARY WOODALL

PEOPLE WITH LEARNING DISABILITIES

Hello my name is Mary Woodall and I have a learning disability and a physical disability, cerebral palsy. I live in a supported living home called CMG (Hervey Road). Hervey Road is a great place to live where I have made lots of new friends; we occasionally go on outings together.

I am very passionate and considerate of those in the community with disabilities and I would like to have a voice and speak in the community to help people with disabilities. Since I have been in supported living, I have been on the member of parliament forum for CMG for a few months.

I have been campaigning for the environment and petitioning for another pelican crossing for the main road. To make it safer for young people with a disability, elderly people and pregnant women. I've also written a questionnaire to try and help families about their waste in the environment. So far in campaigning people have been very supportive and have given very intriguing feedback, which I am very delighted about.

MARY WOODALL

PEOPLE WITH LEARNING DISABILITIES

I am a very good listener and I am very supportive and will take into account what people have to say and make their voices heard. I would appreciate it if you can vote for me as my passion and dream would become a reality.
