

ROB GREIG

ORGANISATIONS & PROFESSIONALS

My name is Rob Greig and I represent the National Development Team for Inclusion (NDTi). We want to be on the representative body because we believe in what LDE is doing and want to be part of making LDE stronger and louder. We think that LDE helps give people hope in these difficult times.

NDTi works to make life better for people who need support to live their lives. We work to ensure that everyone has an equal chance to live the kind of life they want to and take part fully in their own community. We've worked hard to put people with learning disabilities first for 35 years.

We are worried that the voices of people with learning disabilities and families are not being heard. The National Forums and other organisations that used to represent people's voices are under threat so we want to make sure those views are still listened to.

At NDTi, we work alongside people with learning disabilities and families to ensure their voices are strong. We gather evidence,

ROB GREIG

ORGANISATIONS & PROFESSIONALS

listen to people and work in partnership with organisations like My Life My Choice, The Oxfordshire Family Carer Network, BILD, and LDE. Through our networks, we reach lots of people including those in government.

We are good at thinking about where there are gaps in knowledge. We share our ideas and help people to try new things. We've written about the importance of housing and tenancy rights, how to best support people to get paid work and about sex and relationships for people with learning disabilities.

Why vote for NDTi? NDTi are known for getting things done, have a good 'track record' and people know about us. They know we are prepared to challenge, have strong values and have the passion and commitment necessary to improve opportunities for people with a learning disability.
