Great Communities

Peter Connor

MacIntyre Great Communities Manager

January 2019

MacIntyre

Providing support...your way

Great Communities –

a partnership project between MacIntyre, Community Catalysts CIC and the people of Warrington.

Finding ways to help and include people who don't get the care and support they need...people who fall through the gaps.

MacIntyre

Providing support...your way

We are:

- **Identifying people who are falling through the gaps**
- **Engaging them and other local people and organisations - working in partnership**
- **Focussing on the good stuff - making the most of Warrington's assets, especially its people**
- **Enabling people falling through the gap to live a good life, connected to and contributing to their community**
- **Seeing if the learning can be used elsewhere**

MacIntyre

Providing support...your way

Results

- **Mapping of the area and resources and opportunities available**
- **Understanding of who people are who are falling through the gaps and how to reach them.**
- **Connections with people that lead to them identifying an increased sense of purpose, increased sense of wellbeing – optimism, confidence and social opportunities.**
- **Sense of increased knowledge and capacity for businesses and groups.**
- **Developed set of tools to record and evidence numbers of people connected with, outcomes achieved and issues encountered.**

MacIntyre

Providing support...your way

Over to you

- **What would you need for Great Communities to work in your area?**
- **What could you offer?**
