

**Making a better workforce for adult social care**

# Workshop objectives

- What is the Workforce Strategy for Adult Social Care in England.
- We will talk about how the strategy can positively impact people with a learning disability and autistic people.
- We will explore how Learning Disability England members can find out about the strategy and help make it happen.

# Overview of the Workforce Strategy for Adult Social Care in England

# What you've already told us

Attitudes  
towards  
care

Care  
worker pay  
is too low

Need to go  
'back to basics'  
with training for  
staff

Supporting staff  
to progress and  
be good leaders

Choice  
and  
control

The role of  
AI and  
science

# Activity 1: Bringing the strategy to life

## Attract and Retain

## Train

## Transform

# Activity 2: Strategy Champions

A Strategy Champion is someone who tells people about the Workforce Strategy. They get people interested and excited about it.

They will make sure people know about it and use it to make things better for everyone working and using social care.

**“If I become a champion,  
what will I do?”**

# Skills for Care advisory groups

We work with an expert group of people who have a learning disability and family members and/or carers of people who have a learning disability.

We have a Workforce Expert Advisory Network. Anyone with experience of using adult social care or being an unpaid carer can get involved.
